Environment Protection Licence

Licence Details
Number: 20076
Anniversary Date: 12-June

Licensee
CLEANWAY ENVIRONMENTAL SERVICES PTY LTD
PO BOX 5179
MINTO NSW 2566

Premises
12 SHAW ROAD
12 SHAW ROAD
INGLEBURN NSW 2565

Scheduled Activity
Waste storage

Fee Based Activity
Waste storage - hazardous, restricted solid, liquid, clinical and related waste and asbestos waste
Scale
Any listed waste type stored

Region
Hazardous Materials, Chemicals & Radiation
59-61 Goulburn Street
SYDNEY NSW 2000
Phone: (02) 9995 5000
Fax: (02) 9995 5999
PO Box A290 SYDNEY SOUTH
NSW 1232
# Environment Protection Licence

**Licence - 20076**

## INFORMATION ABOUT THIS LICENCE

- Dictionary
- Responsibilities of licensee
- Variation of licence conditions
- Duration of licence
- Licence review
- Fees and annual return to be sent to the EPA
- Transfer of licence
- Public register and access to monitoring data

## ADMINISTRATIVE CONDITIONS

1. **What the licence authorises and regulates**
2. **Premises or plant to which this licence applies**
3. **Information supplied to the EPA**

## DISCHARGES TO AIR AND WATER AND APPLICATIONS TO LAND

1. **Location of monitoring/discharge points and areas**

## LIMIT CONDITIONS

1. **Pollution of waters**
2. **Waste**
3. **Noise limits**
4. **Potentially offensive odour**

## OPERATING CONDITIONS

1. **Activities must be carried out in a competent manner**
2. **Maintenance of plant and equipment**
3. **Emergency response**
4. **Waste management**
5. **Other operating conditions**

## MONITORING AND RECORDING CONDITIONS

1. **Monitoring records**
2. **Recording of pollution complaints**
3. **Telephone complaints line**

## REPORTING CONDITIONS

1. **Annual return documents**
2. **Notification of environmental harm**
3. **Written report**

Environment Protection Licence

Licence - 20076

7 GENERAL CONDITIONS

G1 Copy of licence kept at the premises or plant

8 SPECIAL CONDITIONS

E1 Requirement to maintain Financial Assurance

E2 Environmental Obligations of Licensee (Works and Programs)

E3 EPA may claim on Financial Assurance

DICTIONARY

General Dictionary
Information about this licence

Dictionary
A definition of terms used in the licence can be found in the dictionary at the end of this licence.

Responsibilities of licensee
Separate to the requirements of this licence, general obligations of licensees are set out in the Protection of the Environment Operations Act 1997 (“the Act”) and the Regulations made under the Act. These include obligations to:

- ensure persons associated with you comply with this licence, as set out in section 64 of the Act;
- control the pollution of waters and the pollution of air (see for example sections 120 - 132 of the Act);
- report incidents causing or threatening material environmental harm to the environment, as set out in Part 5.7 of the Act.

Variation of licence conditions
The licence holder can apply to vary the conditions of this licence. An application form for this purpose is available from the EPA.

The EPA may also vary the conditions of the licence at any time by written notice without an application being made.

Where a licence has been granted in relation to development which was assessed under the Environmental Planning and Assessment Act 1979 in accordance with the procedures applying to integrated development, the EPA may not impose conditions which are inconsistent with the development consent conditions until the licence is first reviewed under Part 3.6 of the Act.

Duration of licence
This licence will remain in force until the licence is surrendered by the licence holder or until it is suspended or revoked by the EPA or the Minister. A licence may only be surrendered with the written approval of the EPA.

Licence review
The Act requires that the EPA review your licence at least every 5 years after the issue of the licence, as set out in Part 3.6 and Schedule 5 of the Act. You will receive advance notice of the licence review.

Fees and annual return to be sent to the EPA
For each licence fee period you must pay:

- an administrative fee; and
- a load-based fee (if applicable).
The EPA publication “A Guide to Licensing” contains information about how to calculate your licence fees. The licence requires that an Annual Return, comprising a Statement of Compliance and a summary of any monitoring required by the licence (including the recording of complaints), be submitted to the EPA. The Annual Return must be submitted within 60 days after the end of each reporting period. See condition R1 regarding the Annual Return reporting requirements.

Usually the licence fee period is the same as the reporting period.

**Transfer of licence**

The licence holder can apply to transfer the licence to another person. An application form for this purpose is available from the EPA.

**Public register and access to monitoring data**

Part 9.5 of the Act requires the EPA to keep a public register of details and decisions of the EPA in relation to, for example:

- licence applications;
- licence conditions and variations;
- statements of compliance;
- load based licensing information; and
- load reduction agreements.

Under s320 of the Act application can be made to the EPA for access to monitoring data which has been submitted to the EPA by licensees.

**This licence is issued to:**

</tr>
<tr>
<td>MINTO NSW 2566</td>
</tr>
</tbody>
</table>

subject to the conditions which follow.
1 Administrative Conditions

A1 What the licence authorises and regulates

A1.1 This licence authorises the carrying out of the scheduled activities listed below at the premises specified in A2. The activities are listed according to their scheduled activity classification, fee-based activity classification and the scale of the operation.

Unless otherwise further restricted by a condition of this licence, the scale at which the activity is carried out must not exceed the maximum scale specified in this condition.

</tbody>
</table>

A3 Information supplied to the EPA

A3.1 Works and activities must be carried out in accordance with the proposal contained in the licence application, except as expressly provided by a condition of this licence.

In this condition the reference to "the licence application" includes a reference to:

a) the applications for any licences (including former pollution control approvals) which this licence replaces under the Protection of the Environment Operations (Savings and Transitional) Regulation 1998; and

b) the licence information form provided by the licensee to the EPA to assist the EPA in connection with the issuing of this licence.

2 Discharges to Air and Water and Applications to Land

P1 Location of monitoring/discharge points and areas
P1.1 The following utilisation areas referred to in the table below are identified in this licence for the purposes of the monitoring and/or the setting of limits for any application of solids or liquids to the utilisation area.

3 Limit Conditions

L1 Pollution of waters

L1.1 Except as may be expressly provided in any other condition of this licence, the licensee must comply with section 120 of the Protection of the Environment Operations Act 1997.

L2 Waste

L2.1 The licensee must not cause, permit or allow any waste to be received at the premises, except the wastes expressly referred to in the column titled “Waste” and meeting the definition, if any, in the column titled “Description” in the table below.

Any waste received at the premises must only be used for the activities referred to in relation to that waste in the column titled “Activity” in the table below.

Any waste received at the premises is subject to those limits or conditions, if any, referred to in relation to that waste contained in the column titled “Other Limits” in the table below.

This condition does not limit any other conditions in this licence.

**L2.2** The quantity of the above listed waste stored on the premises must not exceed 200 tonnes at any one time.

**L3** **Noise limits**

**L3.1** The licensee must not cause any offensive noise beyond the boundary of the premises.

**L4** **Potentially offensive odour**
L4.1 The licensee must not cause or permit the emission of any offensive odour beyond the boundary of the premises.

L4.2 No condition of this licence identifies a potentially offensive odour for the purpose of the section 129 of the Protection of the Environment Operations Act 1997.

Note: Section 129 of the Protection of the Environment Operations Act 1997, provides that the licensee must not cause or permit the emission of any offensive odour from the premises but provides a defence if the emission is identified in the relevant environment protection licence as a potentially offensive odour and the odour was emitted in accordance with the conditions of a licence directed at minimising odour.

4 Operating Conditions

O1 Activities must be carried out in a competent manner

O1.1 Licensed activities must be carried out in a competent manner. This includes:
   a) the processing, handling, movement and storage of materials and substances used to carry out the activity; and
   b) the treatment, storage, processing, reprocessing, transport and disposal of waste generated by the activity.

O2 Maintenance of plant and equipment

O2.1 All plant and equipment installed at the premises or used in connection with the licensed activity:
   a) must be maintained in a proper and efficient condition; and
   b) must be operated in a proper and efficient manner.

O3 Emergency response

O3.1 The licensee must maintain, and implement as necessary, a current emergency response plan for the premises. The licensee must keep the emergency response plan on the premises at all times. The emergency response plan must document systems and procedures to deal with all types of incidents (e.g. spills, explosions or fire) that may occur at the premises or that may be associated with activities that occur at the premises and which are likely to cause harm to the environment.

O4 Waste management

O4.1 The licensee must ensure that all waste stored at the premises is assessed and classified in accordance with the Environment Protection Authority’s Waste Classification Guidelines as in force from time to time.

O4.2 When waste is transported from the premises, the licensee must ensure that the waste is transported:

   (a) by a waste transporter authorised to transport such waste; and
(b) to a place that can lawfully be used as a waste facility for that waste.

O4.3 Dangerous Goods
O4.3.1 Waste materials that are classified as ‘dangerous goods’ under the Australian Code for the Transport of Dangerous Goods by Road and Rail as in force from time to time must only be stored under a valid ‘Acknowledgement of Notification of Dangerous Goods on Premises’ issued by WorkCover NSW.

O4.3.2 The storage and handling of dangerous goods at the premises must be carried out in accordance with AS/NZS 3833-2007: The storage and handling of mixed classes of dangerous goods, in packages and intermediate bulk containers or any revisions of that standard which may be made by Standards Australia.

O5 Other operating conditions
O5.1 Stormwater Management

The licensee must ensure that stormwater from all the area of the premises including driveways which have potential to have waste, fuel, oil or any chemical spillage must be controlled. The licensee must ensure that no waste, fuel, oil or any chemical spillage enter the stormwater.

O5.2 Handling and Storage of Waste
O5.2.1 The licensee must ensure that all liquid materials including chemicals, fuels, oils and waste materials are stored in a designated impervious bund that contains at least 110% of the largest container contained within the bund.
O5.2.2 The bunded area (floor and walls) must be impervious to the liquid(s) in the containers. The bund wall must not contain drain valves.
O5.2.3 Decanting, consolidating or bulking of materials must be conducted wholly within the building and within bunded area.
O5.2.4 The licensee must ensure that all waste materials covered under this licence are handled and stored only within the building and within bunded area at all times.
O5.2.5 The licensee must ensure that containers & drums containing waste materials referred to in this licence and containers & drums that are contaminated with residues of a substance or substances referred to in this licence are handled and stored only within the building and within bunded area at all times.
O5.2.6 Waste materials that are classified as dangerous goods must only be stored separately at a designated area within the building and within bunds that is clearly marked.
O5.2.7 Processes such as filtration, separation, consolidation, decanting, or bulking of dangerous goods must not be carried out at the premises.

5 Monitoring and Recording Conditions
M1 Monitoring records
M1.1 The results of any monitoring required to be conducted by this licence or a load calculation protocol must be recorded and retained as set out in this condition.

M1.2 All records required to be kept by this licence must be:
   a) in a legible form, or in a form that can readily be reduced to a legible form;
b) kept for at least 4 years after the monitoring or event to which they relate took place; and

c) produced in a legible form to any authorised officer of the EPA who asks to see them.

M1.3 The following records must be kept in respect of any samples required to be collected for the purposes of this licence:
   a) the date(s) on which the sample was taken;
   b) the time(s) at which the sample was collected;
   c) the point at which the sample was taken; and
   d) the name of the person who collected the sample.

M2 Recording of pollution complaints

M2.1 The licensee must keep a legible record of all complaints made to the licensee or any employee or agent of the licensee in relation to pollution arising from any activity to which this licence applies.

M2.2 The record must include details of the following:
   a) the date and time of the complaint;
   b) the method by which the complaint was made;
   c) any personal details of the complainant which were provided by the complainant or, if no such details were provided, a note to that effect;
   d) the nature of the complaint;
   e) the action taken by the licensee in relation to the complaint, including any follow-up contact with the complainant; and
   f) if no action was taken by the licensee, the reasons why no action was taken.

M2.3 The record of a complaint must be kept for at least 4 years after the complaint was made.

M2.4 The record must be produced to any authorised officer of the EPA who asks to see them.

M3 Telephone complaints line

M3.1 The licensee must operate during its operating hours a telephone complaints line for the purpose of receiving any complaints from members of the public in relation to activities conducted at the premises or by the vehicle or mobile plant, unless otherwise specified in the licence.

M3.2 The licensee must notify the public of the complaints line telephone number and the fact that it is a complaints line so that the impacted community knows how to make a complaint.

M3.3 The preceding two conditions do not apply until three months after: the date of the issue of this licence.

6 Reporting Conditions

R1 Annual return documents

R1.1 The licensee must complete and supply to the EPA an Annual Return in the approved form comprising:
1. a Statement of Compliance,
2. a Monitoring and Complaints Summary,
3. a Statement of Compliance - Licence Conditions,
4. a Statement of Compliance - Load based Fee,
5. a Statement of Compliance - Requirement to Prepare Pollution Incident Response Management Plan,
6. a Statement of Compliance - Requirement to Publish Pollution Monitoring Data,
7. a Statement of Compliance - Environmental Management Systems and Practices; and
8. a Statement of Compliance - Environmental Improvement Works.

At the end of each reporting period, the EPA will provide to the licensee a copy of the form that must be completed and returned to the EPA.

R1.2 An Annual Return must be prepared in respect of each reporting period, except as provided below.

Note: The term "reporting period" is defined in the dictionary at the end of this licence. Do not complete the Annual Return until after the end of the reporting period.

R1.3 Where this licence is transferred from the licensee to a new licensee:
   a) the transferring licensee must prepare an Annual Return for the period commencing on the first day of the reporting period and ending on the date the application for the transfer of the licence to the new licensee is granted; and
   b) the new licensee must prepare an Annual Return for the period commencing on the date the application for the transfer of the licence is granted and ending on the last day of the reporting period.

Note: An application to transfer a licence must be made in the approved form for this purpose.

R1.4 Where this licence is surrendered by the licensee or revoked by the EPA or Minister, the licensee must prepare an Annual Return in respect of the period commencing on the first day of the reporting period and ending on:
   a) in relation to the surrender of a licence - the date when notice in writing of approval of the surrender is given; or
   b) in relation to the revocation of the licence - the date from which notice revoking the licence operates.

R1.5 The Annual Return for the reporting period must be supplied to the EPA by registered post not later than 60 days after the end of each reporting period or in the case of a transferring licence not later than 60 days after the date the transfer was granted (the 'due date').

R1.6 The licensee must retain a copy of the Annual Return supplied to the EPA for a period of at least 4 years after the Annual Return was due to be supplied to the EPA.

R1.7 Within the Annual Return, the Statements of Compliance must be certified and the Monitoring and Complaints Summary must be signed by:
   a) the licence holder; or
   b) by a person approved in writing by the EPA to sign on behalf of the licence holder.

R2 Notification of environmental harm

R2.1 Notifications must be made by telephoning the Environment Line service on 131 555.
Note: The licensee or its employees must notify all relevant authorities of incidents causing or threatening material harm to the environment immediately after the person becomes aware of the incident in accordance with the requirements of Part 5.7 of the Act.

R2.2 The licensee must provide written details of the notification to the EPA within 7 days of the date on which the incident occurred.

**R3 Written report**

R3.1 Where an authorised officer of the EPA suspects on reasonable grounds that:
   a) where this licence applies to premises, an event has occurred at the premises; or
   b) where this licence applies to vehicles or mobile plant, an event has occurred in connection with the carrying out of the activities authorised by this licence, and the event has caused, is causing or is likely to cause material harm to the environment (whether the harm occurs on or off premises to which the licence applies), the authorised officer may request a written report of the event.

R3.2 The licensee must make all reasonable inquiries in relation to the event and supply the report to the EPA within such time as may be specified in the request.

R3.3 The request may require a report which includes any or all of the following information:
   a) the cause, time and duration of the event;
   b) the type, volume and concentration of every pollutant discharged as a result of the event;
   c) the name, address and business hours telephone number of employees or agents of the licensee, or a specified class of them, who witnessed the event;
   d) the name, address and business hours telephone number of every other person (of whom the licensee is aware) who witnessed the event, unless the licensee has been unable to obtain that information after making reasonable effort;
   e) action taken by the licensee in relation to the event, including any follow-up contact with any complainants;
   f) details of any measure taken or proposed to be taken to prevent or mitigate against a recurrence of such an event; and
   g) any other relevant matters.

R3.4 The EPA may make a written request for further details in relation to any of the above matters if it is not satisfied with the report provided by the licensee. The licensee must provide such further details to the EPA within the time specified in the request.

**7 General Conditions**

**G1 Copy of licence kept at the premises or plant**

G1.1 A copy of this licence must be kept at the premises to which the licence applies.

G1.2 The licence must be produced to any authorised officer of the EPA who asks to see it.

G1.3 The licence must be available for inspection by any employee or agent of the licensee working at the
Section 55 Protection of the Environment Operations Act 1997

8 Special Conditions

E1 Requirement to maintain Financial Assurance

E1.1 A financial assurance in the form of an unconditional and irrevocable and on demand guarantee from a bank, building society or credit union operating in Australia as “Authorised Deposit-taking Institutions” under the Banking Act 1959 of the Commonwealth of Australia and supervised by the Australian Prudential Regulatory Authority (APRA) must be provided to the EPA to accompany the issuing of the licence. The financial assurance must be in favour of the EPA in the amount of one hundred thousand dollars ($100,000.00). The financial assurance is required to secure or guarantee funding for works or programs required by or under this licence. The financial assurance must contain a term that provides that any monies claimed can be paid to the EPA or, at the written direction of the EPA, to any other person.

E1.2 The licensee must provide to the EPA, along with the original counterpart guarantee, confirmation in writing that the financial institution providing the guarantee is subject to supervision by the Australian Prudential Regulatory Authority (APRA).

E1.3 An adjustment to the financial assurance must be calculated, each licence review period, in line with the Consumer Price Index for the number of years since the financial assurance was last paid. The financial assurance must be replenished to the full amount plus CPI adjustments each licence review period.

*CPI means the Consumer Price Index (All Groups Index) for Sydney issued by the Australian Statistician*

E1.4 The assurance must be replenished up to the full amount required if the EPA has claimed on or realised the financial assurance or any part of it to undertake a work or program required to be carried out by the licence which has not been undertaken by the licence holder.

E1.5 The financial assurance must be maintained during the operation of the facility and thereafter until such time as the EPA is satisfied the premises is environmentally secure.

E1.6 The EPA may increase the amount of the financial assurance at any time as a result of reassessment of the total likely costs and expenses required.

E1.7 The licensee must provide to the EPA the original counterpart guarantee within five working days of the issue of:
(a) the financial assurance required by condition E1.1.
(b) the adjusted financial assurance as required by condition E1.3, E1.4 and E1.6.

E2 Environmental Obligations of Licensee (Works and Programs)

E2.1 While the licensee’s premises are being used for the purpose to which the licence relates, the licensee must:
(a) Clean up any spill, leak or other discharge of any waste(s) or other material(s) as soon as practicable after it becomes known to the licensee or to one of the licensee’s employees or agents.
(b) In the event(s) that any liquid and non-liquid waste(s) is unlawfully deposited on the premises, such waste(s) must be removed and lawfully disposed of as soon as practicable or in accordance with any direction given by the EPA.
(c) Provide all monitoring data as required by the conditions of this licence or as directed by the EPA.

E2.2 In the event of an earthquake, storm, fire, flood or any other event where it is reasonable to suspect that a pollution
incident has occurred, is occurring or is likely to occur, the licensee (whether or not the premises continue to be used for the purposes to which the licence relates) must:

(a) Make all efforts to contain all firewater on the licensee’s premises;
(b) Make all efforts to control air pollution from the licensee’s premises;
(c) Make all efforts to contain any discharge, spill or run-off from the licensee’s premises;
(d) Make all efforts to prevent flood water entering the licensee’s premises;
(e) Remediate and rehabilitate any exposed areas of soil and/or waste;
(f) Lawfully dispose of all liquid and solid waste(s) stored on the premises that is not already securely disposed of;
(g) At the request of the EPA monitor groundwater beneath the licensee’s premises and its potential to migrate from the licensee’s premises;
(h) At the request of the EPA monitor surface water leaving the licensee’s premises and
(i) Ensure the licensee’s premises is secure.

E2.3 After the licensee’s premises cease to be used for the purpose to which the licence relates or in the event that the licensee ceases to carry out the activity that is the subject of this licence, that licensee must:

(a) remove and lawfully dispose of all liquid and non-liquid waste stored on the licensee’s premises;
(b) rehabilitate the site, including conducting an assessment of and if required remediation of any site contamination.

E3 EPA may claim on Financial Assurance

E3.1 The EPA may claim on a financial assurance under s303 of the POEO Act if a licensee fails to carry out any work or program required to comply with the conditions of this licence

</table>
flow weighted composite sample
Means a sample whose composites are sized in proportion to the flow at each composite time of collection.

general solid waste (putrescible)
Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997

grab sample
Means a single sample taken at a point at a single time

hazardous waste
Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997

licensee
Means the licence holder described at the front of this licence

load calculation protocol
Has the same meaning as in the Protection of the Environment Operations (General) Regulation 2009

local authority
Has the same meaning as in the Protection of the Environment Operations Act 1997

material harm
Has the same meaning as in section 147 Protection of the Environment Operations Act 1997

MBAS
Means methylene blue active substances

Minister
Means the Minister administering the Protection of the Environment Operations Act 1997

mobile plant
Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997

motor vehicle
Has the same meaning as in the Protection of the Environment Operations Act 1997

O&G
Means oil and grease

percentile [in relation to a concentration limit of a sample]
Means that percentage [eg. 50%] of the number of samples taken that must meet the concentration limit specified in the licence for that pollutant over a specified period of time. In this licence, the specified period of time is the Reporting Period unless otherwise stated in this licence.

plant
Includes all plant within the meaning of the Protection of the Environment Operations Act 1997 as well as motor vehicles.

pollution of waters [or water pollution]
Has the same meaning as in the Protection of the Environment Operations Act 1997

premises
Means the premises described in condition A2.1

public authority
Has the same meaning as in the Protection of the Environment Operations Act 1997

regional office
Means the relevant EPA office referred to in the Contacting the EPA document accompanying this licence

reporting period
For the purposes of this licence, the reporting period means the period of 12 months after the issue of the licence, and each subsequent period of 12 months. In the case of a licence continued in force by the Protection of the Environment Operations Act 1997, the date of issue of the licence is the first anniversary of the date of issue or last renewal of the licence following the commencement of the Act.

restricted solid waste
Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997

scheduled activity
Means an activity listed in Schedule 1 of the Protection of the Environment Operations Act 1997

special waste
Has the same meaning as in Part 3 of Schedule 1 of the Protection of the Environment Operations Act 1997

TM
Together with a number, means a test method of that number prescribed by the Approved Methods for the Sampling and Analysis of Air Pollutants in New South Wales.
## Environment Protection Licence

**Licence - 20076**
